

Dahle 20453 High Capacity Shredder

Professional Series

20453

1/8" x 3 1/8" Shred Size
 65/85 Sheet Capacity
 Security Level 3
 4 Hp Motor*
 Manual On/Off

In today's society there's nothing more critical than the accumulation of large volumes of confidential waste. A company's financial records, health information or personnel records can be seen by all if not shredded immediately. This Dahle High Capacity Shredder is just the tool to destroy large quantities of paper in a short amount of time.

The Dahle 20453 is our largest shredder with the ability to shred up to 65/85 sheets of paper at a time. This hopper style unit is driven by a powerful 3 horsepower motor and intended to shred up to 2 tons of paper per day. Metal construction makes this shredder extremely durable and with the addition of three fold out tables, stacking paper to be shred is now more convenient.

These gentle giants are surprisingly quiet for their size and their user friendly controls make them easy for anyone to operate. For safety purposes, these machines feature a special locking mechanism to prevent injury and unauthorized use.

This machine will fit nicely in a company mail room or any other centralized location where large amounts of shredded material is taken. Expensive shredding services are no longer needed with the ability to hold 50 gallons of shredded confidential waste. Not to mention the confidence in knowing your documents are immediately destroyed and can no longer be seen by others.

User friendly controls provide ease of use and reduce the chance of injury.

Rolling castors beneath a wooden bin allows for easy removal of the 50 gallon waste container.
